# FUND BALANCE POLICY

## BACKGROUND

In the Supplemental Report of the 2006 Budget Act, the Legislature specified that the Judicial Council report on court reserves and provide its policy governing trial court reserves. On October 20, 2006, the Judicial Council approved a fund balance policy for trial courts. Financial accounting and reporting standards and guidelines have been established by the Financial Accounting Standards Board (FASB) and the Governmental Accounting Standards Board (GASB). The Trial Court Financial Policy and Procedures Manual, in compliance with these standards and guidelines, specifies that the trial courts are responsible for the employment of "sound business, financial and accounting practices" to conduct their operations.

In addition, Government Code section 77203 specifies that the Judicial Council has the authority to authorize trial courts to carry over unexpended funds from one year to the next. Consistent with this provision, this policy provides courts with specific directions for identifying fund balance resources necessary to address statutory and contractual obligations on an accurate and consistent basis as well as maintaining a minimum level of operating and emergency funds. In addition, this policy provides the necessary structure to ensure funds are available to maintain service levels for various situations that confront the trial courts including a late state budget.

## PURPOSE

Governmental agencies/entities report the difference between their assets and obligations as fund balance, which is divided into restricted and unrestricted categories. The function of the restricted fund balance is to isolate the portion of fund balance that represents resources required to address statutory and contractual obligations.

The purpose of this policy is to establish uniform standards for the reporting of fund balance by trial courts and to maintain accountability over the public resources used to finance trial court operations.

## POLICY

As publicly funded entities, and in accordance with good public policy, trial courts must ensure that the funds allocated and received from the state and other sources are used efficiently and accounted for properly and consistently. The trial courts shall account for and report fund balance in accordance with established standards, utilizing approved categories. Additionally, a fund balance can never be negative.

### Fund Balance Categories

When allocating fund balance to the categories and subcategories, allocations are to follow the following prioritization:

1. Statutory fund balance.
2. Contractual commitments to be paid in the next fiscal year.

3. The minimum calculated operating and emergency fund balance.
4. Other Judicial Council mandates to be paid in the next fiscal year.
5. Contractual commitments to be paid in subsequent fiscal years.
6. Other Judicial Council mandates to be paid in subsequent fiscal years.
7. Other designated subcategories and/or the undesignated subcategory.

If there is insufficient fund balance to cover any or all of the first four priorities, the shortfall should be explained in detail in attached footnotes. Also, there are additional reporting requirements when the amount allocated to the operating and emergency fund balance is below the minimum required.

**Restricted Fund Balance.** This fund balance category is not available for purposes other than statutory or contractual purposes.

***Statutory.*** A restricted fund balance that consists of unspent, received revenues whose use is statutorily restricted.

***Contractual.*** A restricted fund balance set aside for executed contractual commitments beyond the current fiscal year (e.g., multi-year contracts).

**Unrestricted Fund Balance.** This is a fund balance that is comprised of funds that are neither contractually nor statutorily restricted but may, by policy, require minimum amounts be maintained or identified.

***Designated.\**** The portion of unrestricted fund balance that is subject to tentative management plans. For each specific plan, courts must select a specific designated sub-category that is listed and provide a detailed description of the planned use of the fund balance. Specific plans that fall under the same designated sub-category must be listed separately.

***Undesignated.*** The portion of fund balance that is neither restricted nor designated.

### **Designated Fund Balances**

For designated fund balances that are based on estimates, particularly the operating and emergency (above the minimum required), leave obligations, and retirement fund balance designated subcategories, explanations of the methodology used to compute or determine the designated amount must be provided. Designations or planned uses include but are not limited to:

1. **Operating and Emergency**

Each court shall maintain a minimum operating and emergency fund balance at all times as determined by the following calculation based upon that fiscal year's total unrestricted general fund expenditures (excluding special revenue, debt service, permanent, proprietary, and fiduciary funds), less any material one-time expenditures (e.g., large one-time contracts).

Annual General Fund Expenditures

5 percent of the first \$10,000,000

- 4 percent of the next \$40,000,000
- 3 percent of expenditures over \$50,000,000

If a court determines that it is unable to identify the minimum operating and emergency fund balance level as identified above, the court shall immediately notify the Administrative Director of the Courts, or designee, in writing and provide a plan with a specific timeframe to correct the situation.

2. One-time facility – Tenant improvements  
Examples include carpet and fixture replacements.
3. One-time facility – Other  
Examples include amounts paid by the AOC on behalf of the courts.
4. Statewide Administrative Infrastructure Initiatives  
Statewide assessment in support of technology initiatives (e.g., California Case Management System and Phoenix) will be identified in this designation.
5. Local Infrastructure (Technology and non-technology needs)  
Examples include interim case management systems and non-security equipment.
6. One-time employee compensation (Leave obligation, retirement, etc.)  
Amounts included in this category are exclusive of employee compensation amounts already included in the court's operating budget and not in a designated fund balance category.
  - a. One-time leave payments at separation from employment. If amounts are not already accounted for in a court's operating budget, estimated one-time payouts for vacation or annual leave to employees planning to separate from employment within the next fiscal year should be in this designated fund balance sub-category. This amount could be computed as the average amount paid out with separations or other leave payments during the last three years. Any anticipated non-normal or unusually high payout for an individual or individuals should be added to at the average amount calculated.

In a footnote, the court should note the amount of its employees' currently earned leave balance that is more than the established designated fund balance. The amount would be determined by multiplying the hours of earned vacation or annual leave on the payroll records for each employee times his or her current salary rate minus the designated fund balance established.

- b. Unfunded pension obligation. If documented by an actuarial report, the amount of unfunded pension obligation should be included as a designated fund balance. Employer retirement plan contributions for the current fiscal year must be accounted for in the court's operating budget.

In a footnote, the court should note the amount of the current unfunded pension obligation that is in excess of the established designated fund balance.

- c. Unfunded retiree health care obligation. If documented by an actuarial report, the amount of unfunded retiree health care obligation should be included as a designated fund balance.

The current year's unfunded retiree health care obligation contains: (i) the current year Annual Required Contribution (ARC) based on a 30-year amortization of retiree health costs as of last fiscal year-end **and** (ii) the prior year retiree health care obligation **less** (iii) the retiree health care employer contributions and any transfers made to an irrevocable trust set up for this purpose. The current year's unfunded retiree health care obligation is to be added to the prior year's obligation.

Note: The ARC amounts are located in each court's actuarial report, which is entitled "Postretirement Benefit Valuation Report".

In a footnote, the court should note the amount of the cumulative unfunded retiree health care obligation that is in excess of the established designated fund balance.

- d. Workers compensation (if managed locally). The amount estimated to be paid out in the next fiscal year.
- 7. Professional and consultant services  
Examples include human resources, information technology, and other consultants.
  - 8. Security  
Examples include security equipment, and pending increases for security service contracts.
  - 9. Other (required to provide detail)  
Any other planned commitments that are not appropriately included in one of the above designated fund balance sub-categories should be listed here with a description in sufficient detail to determine its purpose and requirements.
