Key Data Elements

Gross Revenue Collected

- Number of cases with payments received
- Non-delinquent collections
 - 6 reported no non-delinquent collections
 - 25 reported collections without case counts
- Separation of delinquent from non-delinquent debt required
- If data cannot be separated, report all information in Prior Period section

Cost Recovery

- Authorized by Penal Code § 1463.007
- Program must comply with Penal Code § 1463.010(b)
 - Cooperative plan between court and county
 - Current written MOU satisfies requirement
- Perform at least 10 of 16 collections activities
- Eligible v. non-eligible costs
- Calculate operating and staff costs
- Separate delinquent from nondelinquent revenue

See *Guidelines and Standards for Cost Recovery*

Adjustments

- Include only **court-ordered** suspensions, dismissals, and alternative payments such as community service or post sentence service of time in custody in lieu of fine, or other non-cash adjustments that occurred during the reporting period.
 - May include ability to pay reduced amounts and fees vacated as a result of legislation (e.g., AB 1869)
- Civil assessments should be reported as part of delinquent debt established, not in adjustments

Discharge from Accountability

- Discharge is authorized and can be approved by responsible collecting entity (Government Code § [25257](#) and § [25259.7](#))
- Discharge relieves entity of obligation to actively pursue the debt, but individual remains liable for payment.
- Discharge any balance too small to justify collections cost or likelihood of collection does not warrant the expense.
- Discharge provides realistic accounting of outstanding debt.

Legislative Report

Narrative:

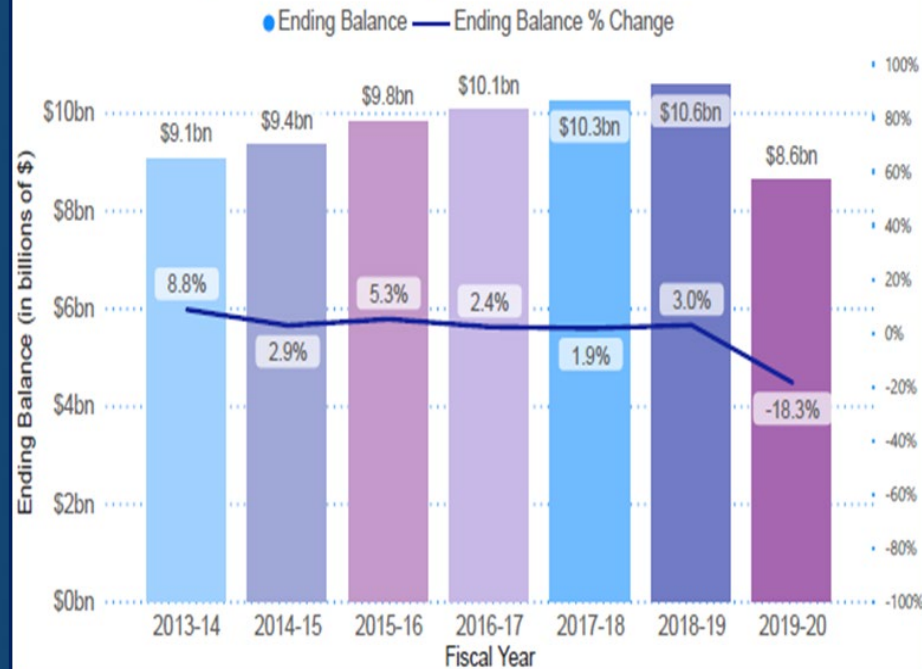

In 2019–20, statewide collections programs collected \$1.163 billion in total revenue, of which \$679 million was nondelinquent (forthwith) court-ordered debt and \$484 million was from delinquent accounts. This is a decline of 17 percent over the \$1.4 billion collected in the prior fiscal year. According to input from various courts and county collections programs, the primary contributing factor to the decline in revenue is the COVID-19 pandemic and subsequent recession. A total of approximately \$2.0 billion in delinquent debt was adjusted or satisfied by means other than payment, such as court-ordered waiver, dismissal, or alternative sentence.

Since reporting began in 2008–09, a total of \$7.4 billion in delinquent court-ordered debt has been collected by court and county collections programs. The total outstanding delinquent debt at the end of 2019–20 was \$8.6 billion, an 18 percent decrease from the \$10.6 billion balance reported for 2018–19. This marks the first decline in outstanding debt since 2008–09.

Individual Program Report

Alameda Court and County 2019-20 Summary

County Population: 1,670,834
 Authorized Judges/Commissioners: 73/10.0

Program Overview

The collection of delinquent court-ordered debt is a cooperative effort between the Superior Court of Alameda County and the County of Alameda. The court and county have a written memorandum of understanding (MOU) for their collections program. The program includes the following activities as reported in the *Collections Reporting Template*:

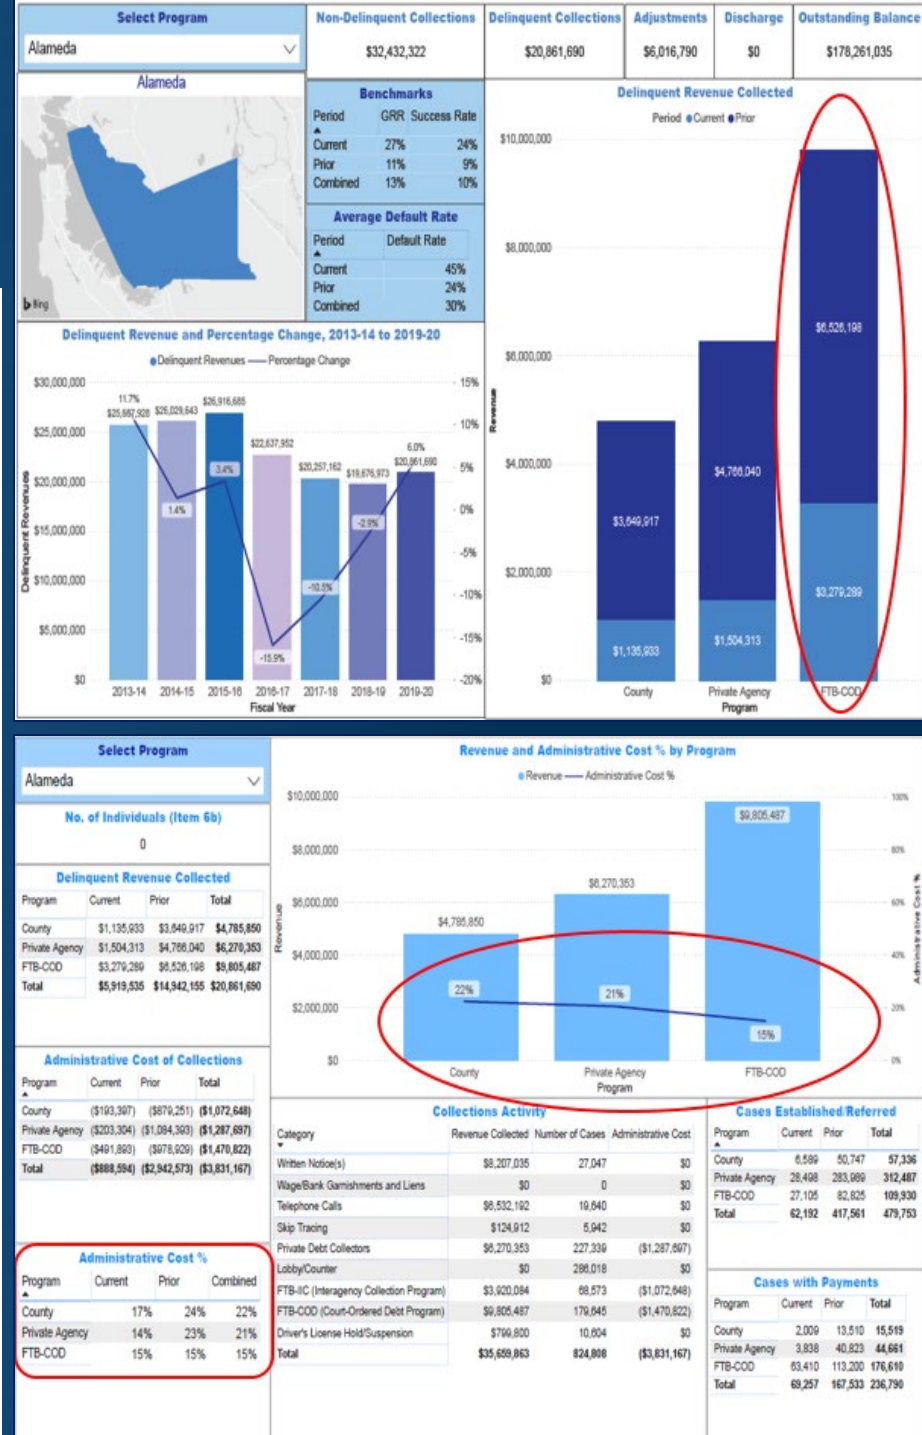

- Meets all 25 of the recommended collections best practices. (see Attachment 3); and
- Engages 16 of the 16 collection activity components pursuant to [Penal Code section 1463.007](#).

Performance

According to the Alameda collections program, this year brought many changes due to COVID-19 pandemic. As a result of the crisis, most collections efforts were suspended for various periods beginning in March 2020. The Gross Recovery Rate (GRR) increased from 16 percent to 27 percent and the Success Rate (SR) increased from 10 percent to 24 percent for the current period. The increase in recovery rates is likely a result of multiple factors, but not limited to the increase in the amount collected by the Franchise Tax Board (FTB) and change to a new private collection agency. The GRR decreased from 38 percent to 11 percent, and the SR decreased from 10 percent to 9 percent from the prior period. The decrease occurred because discharge from accountability was not performed during this reporting period.

Delinquent traffic collections are handled by a private vendor while delinquent criminal collections are handled by the county. Both in turn refer cases to both FTB collections programs. The data submitted by the private collection agency does not reflect the ending balances from last year due to the change in private vendors. During the transfer of accounts, duplicate and inaccurate information was identified and corrected.

The court will continue to work in collaboration with the various collections programs to ensure continuity of the data reported in the Collections Reporting Template (CRT). Each agency uses different tools for storing data and different methods for interpreting and accessing the data, so the task of completing the CRT is not without challenges. The court will continue attempts to improve the quality of data reported and encourage all participating agencies to contribute to the effort.
